

Casa de Olé - Covid-19 and Meal Planning

We are very happy to host you for your vacation. As you may know, Puerto Peñasco has been very strict in their protocols and as such the town has not seen a large number of cases (the town was closed up tight from April, 2020 through August, 2020). Our biggest priorities are your safety, Karla's safety, and that you enjoy your vacation!

We know that Karla's cooking and house management is a major attraction for folks staying at Casa de Olé. Here's what the plan is in terms of her services while Covid19 is with us.

Before your Arrival

If anyone in your group is sick or has been tested positive for Covid19, we ask that they not join your group at Casa de Olé. This is a prudent and appropriate request for everyone's safety. Karla will follow the same protocol. At the house, she will also make sure everything is working properly, the kayak paddles and life jackets are set outside your use, etc. She will thoroughly clean the house as normal. When finished, she will also wipe down all hard surfaces at the end with disinfecting cleaner. Any food she prepares for you on day of arrival will be left in the kitchen ready for you.

During your Stay – 2 options for meals

If you desire meal services, you will need to let us know how you wish to interact with Karla:

Option 1 – Kitchen Food Preparation

This is the traditional option, although modified due to Covid. Karla will shop daily for necessary groceries, come out the house, clean up any soiled dishes, and prepare the day's food in the kitchen. Lunch will be served hot, and dinner will be prepared so that you can easily reheat and server. Karla will be masked at all times, and we request that anyone entering the kitchen be masked as well. She will not be sweeping or doing any other chores.

Option 2 – Food Delivery Only

Each morning, before she arrives, please place any empty dishes Karla has requested to be returned outside on the planter wall by the kitchen. Karla will take these dishes home to be re-used for the next day's meals.

Using this option, Karla will enter either house at any time during your stay. She will plan to do any shopping for you in town each morning and prepare any meals at her home. She will plan to arrive around noon each day. Each day, she will deliver:

1. Any requested groceries.
2. Lunch, which will be ready to eat and warm
3. Dinner in containers, which are intended to be saved until later in the day. You'll need to warm them up when you're ready for eat.

These deliveries will all happen in the courtyard. Karla will be wearing a mask when she is on property and we ask that anyone interacting with her do so also.

At the end of Karla's visit, feel free to ask Karla any questions, ask for supplies or clarify the next day's meals. She will present the day's receipts and she would appreciate it if you can reimburse her daily, since cash flow is a big thing down here.
